

## ARTIFICIAL INTELLIGENCE

# NITAAC can help you acquire artificial intelligence (AI) through our federal IT contracting vehicles

Imagine a world that is autonomous. A world where technology drives deep learning solutions to detect cyber threats and machine learning can formalize a medical diagnosis. There is no need to imagine because that's the world we live in. Information technology companies are already on the forefront of autonomous technology and NITAAC can help the federal government easily procure these solutions.

SCAN TO VIEW INFORMATION ABOUT AI

NITAAC Contract Holders are already supporting AI efforts. That’s why every federal agency, both Civilian and Department of Defense, can rest assured that NITAAC Contract Holders can support AI initiatives of any size.

**Let us assist with your autonomy:**

- Machine learning (ML)
- Deep learning (DL)
- Cognitive Computing
- Computer Vision
- Neural Network
- Natural Language Processing
- And so much more....

In addition, our Contract Holders are poised to assist all federal agencies with AI hardware, software and development solutions. If your agency needs support developing an AI solution, our Contract Holders can assist with the research and development needed to move ahead.

## Why NITAAC?

NITAAC has streamlined the acquisition process to make it easier for customers to purchase AI. Our CIO-SP3 and CIO-SP3 Small Business Government-Wide Acquisition Contracts (GWACs) offer the most innovative and up-to-date services and solutions on the market – including those just emerging.

**Use these Task Areas under either GWAC to procure AI tasks:**

- Task Area 8: Digital Government
- Task Area 10: Software Development

All 47 CIO-SP3 Contract Holders have the ability to provide services under these task areas. Additionally, CIO-SP3 Small Business Contract Holders also provide these services. There are 299 Contract Holders under Task Area 8, and 330 under Task Area 10.

Not looking for a complete solution? Only need products with support services? NITAAC’s CIO-CS GWAC offers hardware and software in support for any AI initiative. **Best of all, NITAAC customers can easily meet their small business goals using our GWACs.**

## Value-added services and support for every customer

- Customized support from Contracting Officers to assist with any contractual, technical or procedural question.
- Free Statement of Work (SOW) / Performance Work Statement (PWS) / Statement of Objectives (SOO) assessments. Requirements are evaluated for scope and clarity to assure quality responses and returned to customers within two business days.
- Customer Support responds to inquiries within 1 business hour.
- Complimentary, personalized training on the NITAAC program, e-GOS and more; earn 2 Continuous Learning Points (CLPs) for many of our trainings.
- Assisted Acquisitions also available.
