NITAAC Delivers Cyber Benefits

Protecting the federal government's information is a never-ending battle. In recent years, the federal government has been investing in new cyber initiatives and mandates. As the world looks to secure information and technology, the government has frequently looked to NITAAC to support its cybersecurity needs to the tune of over $5 billion. Whether you are looking to comply with Zero Trust initiatives, looking for the most innovative products or need help protecting an agency's environment, NITAAC's Government-Wide Acquisition Contracts (GWACs) can assist.

Our three Best in Class Government-Wide Acquisition Contracts (GWACs), CIO-SP3, CIO-SP3 Small Business and CIO-CS, connect you with contract holders who have already proven successful at developing customized, flexible cybersecurity solutions. Many of our contract holders have cleared personnel (both within various DHS agencies and the DoD) ready to support the federal government in a variety of positions that require access to sensitive information.

NITAAC Supports Zero Trust

With innovative dual authentication products and services, we support Zero Trust initiatives. CIO-CS Contract Holders have everything from ransomware protection to cloud migration to compliance and so much more.

Acquisitions at the Speed of Innovation

Our average times from order to award are among the federal government's fastest. For CIO-SP3 and CIO-SP3 Small Business, it averages 30 to 45 days. For CIO-CS, it averages only 10 days.

Streamlined Ordering

NITAAC GWACs use the streamlined processes and procedures of FAR 16.505 vs. the rigorous source selection processes of FAR Part 15.

All Mission Critical IT in One Stop

Cybersecurity products and services are available from industry leading Contract Holders under CIO-SP3, CIO-SP3 Small Business and CIO-CS.
